

You Make Collaboration Work!

Collaboration is more important than ever. It's the key to innovation and productivity. But everyone thinks it's someone else's job—"They should collaborate with me"—and that's why it so often fails. This book shows how we can adopt the beliefs and actions that make collaboration—and our organizations—succeed.

"*Collaboration Begins with You* provides a simple, memorable, and—most important of all—actionable model for destroying the barriers that prevent organizations from getting things done."

—**Patrick Lencioni**, President, The Table Group, and author of *The Five Dysfunctions of a Team* and *The Advantage*

"Creating a safe and trusting environment as a collaborator is the core of success—removing fear and taking people to a place of freedom. You will find the steps to success in *Collaboration Begins with You!*"

—**Garry Ridge**, President and CEO, WD-40 Company, and coauthor of *Helping People Win at Work*

"*Collaboration Begins with You* strips down the fluff and gets to the essence of how any organization can create a collaborative mindset for the greater good."

—**Jesse Lyn Stoner**, founder, Seapoint Center for Collaborative Leadership, and coauthor of *Full Steam Ahead!*
